Professional Summary

Entry-level **Java Backend Developer** with strong foundation in **OOP, DSA, and web technologies**. Experienced in developing secure authentication systems and full-stack applications using **Java, Servlets, JSP, JDBC, MySQL, and REST APIs**. Familiar with **Spring Boot** and eager to deliver scalable, efficient backend solutions. Demonstrated problem-solving through **100+ DSA problems** solved on LeetCode and HackerRank.

Education

MCA – Nalanda Institute of Technology, Odisha | 2024 – 2026 (*Pursuing*)
BCA – MITS School of Biotechnology, Odisha | 2021 – 2024 | CGPA: 7.0/10
+2 Science – Sriram Higher Secondary School, Odisha | 2019 – 2021 | 74%

Technical Skills

- **Programming Languages:** Java (OOP, Collections, Exception Handling, File Handling), C, JavaScript
- **Backend Development:** JSP, Servlet, JDBC, REST APIs, Spring Boot (Learning)
- **Frontend Development:** HTML5, CSS3, JavaScript (DOM, Fetch API), Bootstrap, Tailwind CSS, React
- **Databases:** MySQL (CRUD, Joins, Stored Procedures)
- **Tools & Practices:** Git, GitHub (Branching & Collaboration), Postman, IntelliJ IDEA, Eclipse, VS Code, Agile & SDLC Basics

Projects

Hospital Management System | *Java, JSP, MySQL, Bootstrap*

- Developed an **end-to-end hospital management platform** handling appointments, doctors, patients, and staff records.
- Implemented database-driven modules that reduced **manual record errors by 40%**.
- Designed responsive front-end with Bootstrap for better accessibility.

User Authentication Web App | *Java Servlet, MySQL, JavaScript*

- Built a **secure login & registration system** with JDBC-based database integration.
- Implemented **client-side validation** and asynchronous communication using **Fetch API**, improving login efficiency.

Certifications

- Java Programming – *Udemy* (2023)
- Web Development Certification – *[Platform]*
- Solved **100+ DSA problems** on LeetCode & HackerRank

Soft Skills

Team Collaboration | Problem-Solving | Time Management | Communication
